

Sample Solution---Lecture 4.3 Programming Exercise

```
public class Lecture4_3ProgrammingExercise
{
    public static void main(String [] args)
    {
        try
        {
            tryit();
        }
        catch (ArithmeticException e)
        {
            System.out.println( "ArithmeticException caught" );
        }

        finally
        {
            System.out.println( "Finally" );
        }

        System.out.println( "Method ending" );
    }

    public static void tryit()
    {
        int i = 10;
        int j = 0;

        System.out.println("Value is " + i/j );
    }
}
```
